

PLASTIC BODY PH ELECTRODE

pH electrode designed with a durable polycarbonate body. Measuring range of 0-14 pH, which makes it suitable for water treatment and chemical processing. Alternative electrode types or cable lengths upon request.

TECHNICAL FEATURES AND CODES

| Type | Connection | Pressure | Temperature | Code |
|------|--------------------------|----------|-------------|------------|
| pH | 6 m cable | 4 bar | 60°C | AEL0001903 |
| pH | 1 m cable | 4 bar | 60°C | AEL0001902 |
| pH | With screwable connector | 5,5 bar | 60°C | AEL0007701 |

SUGGESTED: coaxial cable for electrodes with screw connectors

| Description | Code |
|-------------|------------|
| 0,50 m | 2105044 |
| 1 m | SCV0000302 |
| 3 m | 2105003 |
| 5 m | 2105004 |
| 9 m | 2105005 |
| 15 m | 2105007 |
